## 1. Teaching-Learning Process:

Teaching-Learning process is a dynamic activity that needs to be constantly upgraded, monitored and developed to face the current challenges effectively. The steps taken in this direction are:

- a) **Mentoring System** – Each class of B.Pharm is divided into 4 batches (2017-18 batch onwards with 100 intake) and each batch is assigned a faculty member as mentor who would periodically review and counsel the students in their academics, placements, participation in extracurricular activities and if required their personal problems too. Similarly one faculty member is assigned to each M.Pharm specialization and one faculty member for Pharm. D.
- b) **Feedback** – Feedback was collected from students in every semester and was recorded for further improvement and relevant suggestions are effectively implemented.
- c) **Frequent Staff Meetings** – Teaching staff meetings were held at least once in a month to review the progress of various activities.
- d) **Faculty Development & Recruitment** – New faculty members were recruited as Assistant Professors. Faculty are constantly encouraged to associate themselves with professional bodies and attend seminars, workshops, faculty development programs to update their knowledge about the latest developments and advances in the pharmaceutical field. It is pertinent to mention here that SUCP has **9 faculty members with Ph.D.**
- e) **Participation in Seminars / Workshops etc.** – Students under the guidance of faculty members are encouraged to participate in conferences, workshops etc., to broaden their intellectual horizons.

## 2. Modernization of Office & Laboratory activities:

- a) **Microsoft License software**
- b) **CliniRx Software** - for Pharmacy Practice
- c) **Lexicomp Software** - for Pharmacy Practice
- d) **ExPharm Software** - for simulated animal experiments
- e) **Brevity Solutions** - for students data
- f) **EduNXT** - for Campus Automation solutions

## 3. Strengthening the Library:

- a) **Internet Facility** – Provided to students in the library, computer room and M. Pharm computer room.

## 4. Laboratories:

Our laboratories are equipped with High Performance Liquid Chromatography (HPLC) and a new equipment “Neurostar Robotic Stereotaxic Apparatus” is purchased at a cost of Euro 17,000/- with funding from AICTE MODROB scheme.

**FREQUENCY OF GC MEETINGS:** Total number of meetings in 2024-25
